

HINTERLAND DINING CHAIR

The Hinterland Dining Chair, is a nod to the rich farming history of Byron Bay's Hinterland – a contemporary expression of the region's utilitarian, country aesthetic.

The chair's soft upholstered seat is supported by an expressed timber framework, with each member distinctly arranged to support one another. Rectilinear front legs are contrasted by a circular dowel rear leg. Each element is celebrated with our signature sense of refinement and ease, creating a sophisticated and curvaceous chair that is still relaxed and understated.

MATERIALS

Timber includes American Oak, Tasmanian Blackwood and American Walnut. Finished with Osmo Oil.

Stained timber and fabric options available.
